LIGHT

LI

Carrier Tape Specifications (Loaded Quantity: 4000pcs/roll)

Moisture Resistant Packaging

LIGHT universal Label

Aluminum moisture-proof bag

Desiccant

Customer defined Label or LIGHT universal Label

Suggest IR Reflow Condition For Lead Free

1. Reflow soldering should not be done more than two times.
2. When soldering, do not put stress on the LEDs during heating.

Soldering iron

1. When hand soldering, the temperature of the iron must less than 300°C for 3 seconds.
2. The hand solder should be done only once.

Repairing

Repair should not be done after the LEDs have been soldered. When repairing is unavoidable, a double-head soldering iron should be used (as below figure). It should be confirmed beforehand whether the characteristics of LEDs will or will not be damaged by repairing.
